

Riding Update

September 2011

Dear Friends,

I hope you had an enjoyable summer, and that you are settling in to the swing of things as school resumes and fall activities get under way.

I wanted to send you a quick reminder about a few community meetings taking place in the coming weeks:

- Thursday, September 8th, 2011, 7:00pm - **"Ships Start Here" Community Connect**, hosted by the Greater Halifax Partnership and me at École Beaubassin.
- Tuesday, September 13th, 2011, 7:00pm - **Halifax North West Trails Association Public Meeting** on the **Blue Mountain Birch Cove Lakes Wilderness Area** development in the Thomas Raddall Room, Keshen Goodman Public Library.
- Monday, September 19th, 2011, 7:00pm - **Community Connect on Lyme Disease** featuring **Dr. Ernie Murakami**, hosted by the Bedford Residents Association and me at Basinview Drive Community School.

Additionally, I have attached a copy of my most recent newsletter, in case you missed it in the mail. (This was sent out to Bedford - Birch Cove residents last week.)

Finally, I wanted to let you know that I was named as the critic for Community Services and Housing yesterday. As a result, I will no longer be the critic for Advanced Education and Labour. However, I will continue to serve as the critic for the NS Advisory Council on the Status of Women. And if you have any provincial issue - whether it's education, labour, health or business - related, I'm most happy to assist as your MLA.

Sincerely,

Kelly
